

Agricultural Fuel Injection Pumps

Servicing all major manufacturers of Agricultural and Farm Equipment

Keeping Pace with Technology

Stanadyne's Model DE Electronic Pump is an electronically controlled, distributor style diesel fuel injection pump designed for lower speed, off-highway engine applications including John Deere agricultural equipment. As an authorized DE certified, Stanadyne Service Dealer, we are able to test and service DE fuel pumps.

Robert Bosch Corporation's VP44 Electronic Pump is an electronically controlled, distributor style diesel fuel injection pump used in automotive (Dodge ISB 24 Valve Cummins Engine) and John Deere Agricultural Equipment. As one of the few Bosch Authorized VP44 Testing and Repair Centers in Canada, GCL Diesel can provide service for you.
